Spine (ISSN 0362-2436) is published monthly by J. B. Lippincott Company, at Downsville Pike, Route 3, Box 20-B, Hagerstown, MD 21740. Business offices are located at East Washington Square, Philadelphia, PA 19105. Printed in the U.S.A. © Copyright 1989 by J. B. Lippincott Company. Second class postage paid at Hagerstown, MD, and at additional mailing offices.

Subscription information, orders or change of address: (except Japan, India, Nepal, Bangladesh, and Sri Lanka) Downsville Pike, Route 3, Box 20-B, Hagerstown, MD 21740, or call 1-800-638-3030; in Maryland, call collect 301-824-7300. In Japan, contact Woodbell Incorporated, 4-22-11, Kitakasai, Edogawaku, Tokyo 134, Japan. India, Nepal, Bangladesh, and Sri Lanka contact Universal Subscription Agency Pvt. Ltd., 101-102 Community Center (F.F.) Saket, New Delhi-110017, India.

Annual subscription rates: U.S. $99.00 individual, $139.00 institution; resident/student $66.00 U.S. only, $81.00. Canada only; all other countries except Japan, India, Nepal, Bangladesh, and Sri Lanka, $121.00 individual, $161.00 institution. Single copies $14.00. Rates for air mail delivery available upon request. Copies will be replaced without charge if the publisher receives a request within 60 days of the mailing date in the U.S. or within 5 months in all other countries.

POSTMASTER: Send address changes to Spine, Downsville Pike, Route 3, Box 20-B, Hagerstown, MD 21740.

SUBJECTS AND TITLES

A

Abdominal muscle torque, relationship to EMG, 857
Acro-osteolysis of the fingers in a spinal cord injury patient, Marmolya G, Yagan R, Freehafer A, 137
Action potentials, compound muscle, in experimental spine maneuver, 687
Acute ascending myelopathy of the spine, Yablon IG, Ordia J, Mortara R, Reed J, Spatz E, 1084
Acute massive dural compression secondary to methyl methacrylate replacement of a tumorous lumbar vertebral body, Dolin MG, 108
Age
and disc herniation in elderly persons, 1020
and pain response related to disc deterioration, 420
Alignment of spine, normal, in sagittal plane, 717
Analgesia, postoperative, two methods in, 363
Analgesic agents combined with antispasm agents in back pain, 438
Analysis of cervical instability resulting from laminectomies for removal of spinal cord tumor, Katsumi Y, Honma T, Nakamura T, 1171
Analysis of the effect of the Zielke operation on S-shaped curves in idiopathic scoliosis: The use of EVAs showing that correction of the thoracic curve occurs in its lower part: Significance of the thoracolumbar spinal segment, Wojcik AS, Webb JK, Burwell RG, 625
Analysis of the primary and compensatory curvatures following Zielke instrumentation for idiopathic scoliosis, Puno RM, Johnson JR, Ostermann PAW, Holt RT, 738
Anatomic analysis of pedicle cortical and cancellous diameter as related to screw size, Misenhimer GR, Peek RD, Wiltse LL, Rothman SLG, Widell EH Jr, 367
Anomalous lumbosacral articulations and low-back pain: Evaluation and treatment, Jönsson B, Strömqvist B, Egund N, 831
Anterior extension of the thoracic vertebral bodies in Scheuermann's kyphosis: An anatomic study, Digiovanni BF, Scoles PV, Latimer BM, 712
Anterior stabilization, instrumentation, and decompression for post-traumatic kyphosis, Kostuik JP, Matsusaki H, 379
Antidiuretic hormone secretion, inappropriate, in spinal fusion patients, 722
Analus fibrosus, healing potential of, 398
AO internal fixation
and DCP plates for lumbar spine, 91
results with, 373
AO spinal internal fixation, Esses SI, 373
Arachnoiditis
long-range prognosis of, 1332
spinal adhesive, 870
Arch-like structure of spine, 266
Arteriovenous malformation, lumbar spinal nerve root, 543
Arthritis. *See* Rheumatoid arthritis
Arthrodesis. *See* Fusion, spinal
Atlanto-axial instability
in Down's syndrome, 1149
in rheumatoid arthritis, 1057
Atlanto-axial subluxation in rheumatoid arthritis, 1054
dural compression in, 236
Atlanto-occipital dislocation with spontaneous bony fusion, 123
Atypical multivertebral fracture due to hyperextension in an adolescent girl, Ferrandex L, Usabiaga J, Curto JM, Alonso A, Martin F, 645
Axis
fibrous dysplasia of, 243
giant cell tumor of, 1203

B

Back pain
and cardiovascular fitness levels, 141
causative factors in middle age, 577
in childhood, 812
combined analgesic and antispasm agents in, 438
and compensation affecting recovery from injury, 947
computer-based interview system in, 844
cross leg pain and trunk list in, 602
Dallas Pain Questionnaire in, 511
and disc degeneration in young patients studied with MRI, 982
in female gymnasts, 847
and functional restoration with behavioral support, 157
after Harrington instrumentation in scoliosis, 620
and HMO trial of back schools, 338
and injuries in hospital employees, 315
and isometric lifting strength, 851
lifestyle factors in, 501
after lumbar fusion, 210
lumbar muscle fatigue in, 992
in lumbosacral anomalies, 831
Modified Somatic Perception Questionnaire in, 507
in nurses
intervention study in, 148
and patient-handling skills, 148
in occult infections, 417
occupational factors in, 204
prediction in working population, 939
predictors of treatment outcome in, 427
psychosocial factors affecting outcome in, 838
psychosociomedical prediction model in, 956
relation to age and disc deterioration, 420
reproducibility of physical signs in, 908
research perspectives in, 1384
in scoliosis in adults, 1391
and straight leg raising in children and adolescents, 526
from transitional vertebrae of lumbar spine, 1373
trigger-point injection therapy in, 962
and variation in lumbar sagittal mobility, 584
and work environment of women, 517
Back pain in childhood, Turner PG, Green JH, Galasko CSB, 812
Back pain after Harrington rod instrumentation for idiopathic scoliosis, Fabry G, Van Melkebeek J, Bockx E, 620
Baseball pitchers, electromyographic study of, 404
Behavior therapy, and functional restoration in low-back pain, 157
Bertolotti's syndrome revisited: Transitional vertebrae of the lumbar spine, Elster AD, 1373

Biochemical and structural properties of the cartilage end-plate and its relation to the intervertebral disc, Roberts S, Menage J, Urban JPG, 166
Biomechanical analysis of pedicle screw instrumentation systems in a corpectomy model, Ashman RB, Galpin RD, Corin JD, Johnston CE II, 1398
Biomechanical effectiveness of the Boston brace in the management of adolescent idiopathic scoliosis, Chase AP, Bader DL, Houghton GR, 636
Biomechanical evaluation of cervical spinal stabilization methods in a human cadaveric model, Coe JD, Warden KE, Sutterlin CE, McAfee PC, 1122
Biomechanical evaluation of spinal fixation devices. Part III. Stability provided by six spinal fixation devices and interbody bone graft, Abumi K, Panjabi MM, Duranceau J, 1248
Biomechanics
of cervical spine implants, 1040
of cervical spine stabilization methods, 1122
and estimation of lumbar disc areas, 51
and evaluation of spinal fixation devices, 1248
rotational stability studies, 663
and spine as an arch, 266
Volvo Award in, 937
Blood flow, intraradicular, compression affecting, 1219
Blood transfusions
and hepatitis in spine surgery patients, 1033
in lumbar fusion operations, 358
and use of cell saver and predeposited blood, 1296
Bone density
in scoliosis, 706
spinal, after spinal fusion, 477
Bone grafts
in anterior cervical decompression surgery, 1210
and anterior debridement in vertebral osteomyelitis, 284
freeze-dried, and failure of spinal fusion, 496
iliac, harvesting of, 1324
and tension band wiring in spondylolysis, 455
vascularized, in canine spine surgery, 727
Bone mineral content, gender, body posture, and build in relation to back pain in middle age, Bergenudd H, Nilsson B, Udén A, Willner S, 577
Bone scintigraphy in patients with breast cancer, pulmonary cancer, uterine cervix cancer, and prostate cancer: Statistical study of spinal accumulation cases, Morishita S, Onomura T, Inoue T, Maeda H, Akagi H, 784
Boston brace in adolescent scoliosis, 636
Bowel perforation following microsurgical lumbar discectomy, Schwartz AM, Bordkey JS, 104
Brace treatment in scoliosis
Boston brace for adolescents, 636
and trunk muscle activities, 1283
Burst fractures in the thoracic and lumbar spine: A clinico-neuropathologic analysis, Willen JAG, Gaekwad UH, Kakulas BA, 1316
Burst fractures, thoracolumbar, 1316
and intraoperative ultrasonography, 387
spontaneous, in osteoporosis, 114

C

C6-7 dislocation in a neurologically intact neonate, McLain RF, Clark CR, El-Khoury GY, 125
Cardiovascular risk factors, and industrial back pain complaints, 141
Cartilage end-plate biochemistry, 166
Cauda equina
compression in pig, and edema formation in spinal nerve roots, 569
lesions after surgery in spondylolisthesis, 214
Cauda equina lesions following fusion in situ and decompressive laminectomy for severe spondylolisthesis, Maurice HD, Morley TR, 214
Cephazolin, intravenous, in iatrogenic discitis, 1025
Cerebral palsy
athetoid, unstable cervical spine in, 1154
spinal fusion and instrumentation in, 750
Cervical pneumomyelogram secondary to a closed fracture-dislocation of the thoracic spine, Delamarter RB, Heller J, Bohlman HH, 1421
Cervical spine
angled halo pin insertion for immobilization, 781
anterior approach in surgery of, esophageal perforation in, 1051
anterior decompression followed by motor weakness, 1210

odontoid process fractures, 1065
and retrolisthesis of lumbosacral junction, 132
spinal cord, and infected Charcot spine, 892
spinal fractures in ankylosing spondylitis, 803
Traumatic cervical spine injuries in childhood and adolescence, Birney TJ, Haney EN, 1277
Traumatic lateral atlanto-occipital dislocation with spontaneous bony fusion, Jevitch V, 123
Traumatic retrolisthesis of the lumbosacral junction, Cohn SL, Keppler L, Akbarnia BA, 132
Treatment of hematogenous pyogenic vertebral osteomyelitis with anterior debridement and primary bone grafting, Emergy SE, Chan DPK, Woodward HR, 284
Trigger-point injection therapy in low-back pain, 962
Trunk muscle activities in braced scoliosis patients, Wynarsky GT, Schultz AB, 1283
Trunk muscles
activities in braced soliosis patients, 1283
electromyographic analysis in baseball pitchers, 404
isoinertial strength tests against three resistance levels, 409
postoperative strength measurements with CT, 33
responses to high-intensity resistive exercise, 815
and simulation model of trunk motion, 5
strength assessment after discectomy, 402
Tumors
bone scintigraphy in cancer patients, 784
conus ependymomas missed by MRI scans, 134
giant cell tumor of axis, 1203
infiltration into intervertebral disc, 1244
malignant schwannoma metastatic to spine, 549
metastases to upper cervical spine, 1071
paraganglioma of thoracic spinal cord, metastasis of, 643
pheochromocytoma metastasis to spine, 349
of spinal cord, and cervical instability after removal with laminectomy, 1171
spinal cord compression from, 1308
management of, 223
surgery in metastases to spine, 41
vertebral arch hemangioma in pregnancy, 888

U
Ultrasonography
intraoperative
in anterior spinal operations, 1191
in reduction of thoracolumbar burst fractures, 387
in lumbar spinal canal measurements, 232
Unit Rod segmental spinal instrumentation in the management of patients with progressive neuromuscular spinal deformity, Bell DF, Moseley CF, Koreska J, 1301
Unstable cervical spine in athetoid cerebral palsy, Ebara S, Harada T, Yamazaki Y, Hosono N, Yonenobu K, Hiroshima K, Ono K, 1154
Use of dexamethasone in primary lumbar disc surgery: A prospective, randomized, double-blind study, Watters WC III, Temple AP, Granberry M, 440

V
Validity of clinical tests in the diagnosis of root compression in cervical disc disease, Vikari-Juntura E, Porras M, Laasonen EM, 253
Variability of somatosensory cortical evoked potential monitoring during spinal surgery, Lubicky JP, Spadaro JA, Yuan HA, Fredrickson BE, Henderson N, 790
Variation in lumbar sagittal mobility with low-back trouble, Burton AK, Tillotson KM, Troup JDG, 584
Venous obstruction in intervertebral foramen, 558
Vertebral arch hemangioma producing spinal cord compression in pregnancy: Diagnosis by magnetic resonance imaging, Schwartz DA, Nair S, Hershey B, Winkelman AC, Finkelstein SD, 888
Vertebral bodies, location related to skin profile, 258
Volvo Awards
in basic science, 919
in biomechanics, 927
in clinical sciences, 908

W
Walking and cycling tests in neurogenic and intermittent claudications, Dong G, Porter RW, 965
Water diffusion pathway, swelling pressure, and biomechanical properties of the intervertebral disc during compression load, Ohshima H, Tsuji H, Hirano N, Ishihara H, Yamada H, Katoh Y, 1233
Water, fixed charge density, protein contents, and lysine incorporation into protein in chymopapain-digested intervertebral disc of rabbit, Kitano S, Tsuji H, Hirano N, Sano A, Terahata N, 1225
Weakness after anterior cervical decompression surgery, 1210
Wiltse pedicle screw fixation system: Early clinical results, Horowitch A, Peek RD, Thomas JA Jr, Widell EH, DiMartino PP, Spencer CW III, Weinstein J, Wiltse LL, 461
Wiring, segmental
with Harrington instrumentation, meningeal-skin fistula from, 241
in spinal deformities, complications from, 241
sublaminar
testing of materials for, 632
with Unit Rod in neuromuscular spinal deformities, 1301
Work environment. *See* Occupation

Z
Zielke instrumentation
affecting S-shaped curves in scoliosis, 625
in cerebral palsy, 750
compared to other procedures in scoliosis, 275
and postoperative curvature, 738
